Introduction

Lake Tuusula offers visitors a wide array of excursion options – There's plenty to see and do for everyone! Immerse yourself in the history of the region's many atmospheric sites, which are steeped in the evocative heritage of the Finnish romanticists who laid the foundations for the story of our nation. Let yourself be enchanted by our national landscapes and natural habitats or even invigorate yourself by cycling around Lake Tuusula.

In this brochure, we have compiled the region's must-see attractions, top restaurants, and plenty of tips to help you get the most out of your stay. A visit to Lake Tuusula is rewarding all year round. With so much to enjoy,

Lake Tuusula is a fantastic destination for everyone.

The Lake Tuusula Road and Artists' Community

Lake Tuusula is situated right in the middle of the municipality of Uusimaa. At the northern end of the lake lies the town of Järvenpää, with the town of Tuusula to the south.

More than a century ago, a truly one of a kind artist community was established in the region, when many masters from the so-called 'Golden age' of Finnish art settled along the shores of Lake Tuusula. The Lake Tuusula artists' community was the birthplace of a national movement that instigated the cultural enrichment of our nation as we strode toward independence. The region was hugely significant to the era of Finnish romanticism and is part of what is lovingly referred to in Finnish as the siulunmaisemaa or national 'soul landscape' that has become so well-known through the many masterpieces gifted to our nation.

Following in the footsteps of the celebrated Finnish writer Aleksis Kivi, a large number of artists moved to the area and left behind them a legacy that would go on to have a longstanding impact on Finnish art and culture as a whole. Similarly, celebrated author Juhani Aho also attracted fellow artists to the region during this remarkable period of Finnish art. As the arriving creative artisans forged closer links with each other, a one-of-a-kind and heavily influential community took shape.

While a short visit is will give you a taste of the region's distinct artistic heritage, there are ample opportunities to dig a bit deeper and spend an entire trip learning and exploring Lake Tuusula's storied creative history. A quick pit-stop anywhere in this stunning lakeside landscape will brighten your day and a longer visit will stay with you for a lifetime. It is no wonder that Lake Tuusula regularly welcomes an abundance of visitors from near and far time and again.

At 8 km in length, the lake is contoured by a narrow and meandering snaking 20 kilometre hiking trail, which is mostly flat. Many of the historic artists' homes are located along the lake's eastern coastal road (Rantatie). You can also explore the scenery and the region's cultural treasures by bike.

Lake Tuusula's Museums

The Lake Tuusula artists' community was formed by practitioners from different fields – visual artists, writers and composers. Consequently, the museums in the area intersect the full spectrum of regional and national culture and history, from times of war and peace, and naturally including the art of the Finnish 'Golden Age'. This trip back in time to the era of Finnish romanticism is only a thirty-minute journey from downtown Helsinki.

AHOLA

Writer Juhani Aho and painter Venny Soldan-Brofeldt lived in Ahola from 1897. After falling in love with the area, Juhani Aho went on to entice other artists to Lake Tuusula, and so the notable community of artists began. Visitors to Ahola can immerse themselves in the life's work of this artistic couple and enjoy the summertime exhibition, which changes annually. A museum shop and a café can be found next to the tickets office.

ALEKSIS KIVI'S MEMORIAL COTTAGE

A visit to the memorial home of Aleksis Kivi, one of Finland's greatest authors, allows you to sample what life was like in and around Lake Tuusula before the artists' community became established. The cottage originally belonged to Kivi's brother and his family. Aleksis Kivi himself only lived there for the last few months of his life in 1872. The small cottage and courtyard is impressive in its modesty.

TUUSULA CHURCH

Tuusula's timber-framed church is one of the oldest surviving cruciform churches in Finland. It was inaugurated in 1734. The church adopted its current colour scheme, designed by Pekka Halonen, in 1927. The church's simple décor, stained glass windows, and its altarpiece decorated by Johan Asplund in the 1850s, all lend the church an intimate atmosphere. Aleksis Kivi and Pekka Halonen are among other persons of note buried in the church grounds.

Welcome!

Nature in and around Lake Tuusula

Lake Tuusula has been nominated as the regional lake of the municipality of Uusimaa. The artists who lived on the shores of the lake at the turn of the 19th and 20th centuries immortalized it in numerous works of art, and so it became part of what is popularly referred to as the Finnish 'soul landscape' (siulunmaisema).

With its stunning surroundings, Lake Tuusula is an absolute natural gem in this part of Finland. The lake is also categorised as an area of national significance for bird life. There are many natural attractions in the surrounding area and the lake is popular with visitors of all ages and interests – whether you would like to take part in a Jolly Boat race or enjoy some skiing, Nordic skating, or cycling, Lake Tuusula has something for everyone. It is no wonder that Lake Tuusula has become a popular outdoor recreation destination for both Finns and international tourists alike.

Lake Tuusula is a hidden gem.

SARVIKALLIO Sarvikalliontie, 04300 Tuusula

Sarvikallio is a popular all-year hiking destination. At its highest point, the Lake Tuusula shoreline rises to 25 metres above water level. And the vantage point afforded by the cliff face that falls sharply towards the lake is a great place to stop and enjoy a bite to eat while admiring the lake scenery. The old villas on the other side remind us of the area's cultural and historical significance, with its once-flourishing and colourful artist community.

Sarvikallio was also an important place for members of the artist community. Venny Soldan-Brofeldt, Pekka Halonen, and Eero Järnefelt often painted and hiked along the cliff with their families. In fact, Sarvikallio reminded Eero Järnefelt of the rugged landscape of Koli National Park, after which he christened the area 'Little Koli'.

On the woodland trails in and around Sarvikallio, you can experience both the deep shade of the old forest and the enchanting light of the birch groves. New routes of approximately two and three kilometres lead the way to a rest stop, which has a campfire

site and dry toilet facilities. Sarvikallio has great transport connections in many directions, both by car and public transport, and is also an ideal location for a bike ride. Sarvikallio is a legally-protected nature reserve.

FJÄLLBO PARK Aleksis Kiven kuja, Tuusula

Situated close to the many attractions on Tuusula's Rantatie coastal road, the beautiful Fjällbo Park is a popular recreation area alongside Lake Tuusula. Fjällbo can be found near the parking area shared by the Aleksis Kivi memorial cottage and the Erkkola estate. In days gone by, the park was home to an old villa, which is nowadays commemorated by a charming old gazebo and a stone staircase leading down to the lakeside.

The rocky cliffs of the park and the coastal walking paths provide you with tranquil setting to enjoy the area's nature and the beauty of the lake scenery. On the opposite shore lies the Sarvikallio recreation area. There are also benches and a campfire site dotted along the trail. A new playground with play cottages can be found close to the car park.

THE SEVEN BROTHERS HIKING TRAIL

The 'Seven Brothers' trail is a 90 km long hiking route from Helsinki to Hyvinkää. The journey passes through several forested and urban sites associated with Aleksis Kivi's renowned novel, *The Seven Brothers*. The route can be completed in short day trips or as multi-day hike, and has rest facilities and dining, washing, and accommodation services along the way. Some sections of the trail are also suitable for skiing and cycling.

The Tuusula leg of the trail runs through the forest paths of the Ruotsinkylä Research Forest and leads through the River Tuusula valley and Lahela bike paths to the cultural landscape of Nahkela. The Tuusula leg is about 15 kilometres in length.

Available for smartphones, the handy Citynomadi app provides information on the local nature, history, personalities, and events, and also provides fitness and stretching advice.

VANHANKYLÄNNIEMI NATURE TRAIL

Nature trail starting point:
Stålanentie 26, Järvenpää

The 'Old Town' nature trail is four kilometres long. The guided trail can be completed from start to finish or in two parts. There are rest areas and viewpoints along the way, as well as

a beach where you can swim. The route meanders through points of interest including hardwood forest, rocky outcrops, mansion houses, the headland, and a wasteland surprise. The information boards begin at the Vanhankylän kartano ('Old Village Manor House').

LAKE TUUSULA WETLANDS

data can be traced back to the 1940s. Several species of bird nest and stopover in the Lake Tuusula region. The special Natura area consists of three separate shore and wetland areas around Lake Tuusula. The area in the Natura site of most ornithological significance is Järvenpää, at the northern end of Lake Tuusula. As many as 46 breeding species of birds have been recorded in the area between Linturanta and the northern end of the lake.

There are two bird watching towers on the lake. The northern tower is reached by following a boardwalk, referred to as Jouko's path, which starts behind the Järvenpää Art House. Information boards about the bird life and plants found in the area are dotted along the route. The bird watching tower at the southern end of the lake is accessible from the Koskenmäentie light traffic fairway, near the bridge over the Tuusulanjoki River.

Things to do in and around Lake Tuusula

There are plenty of activities to do in the Lake Tuusula area all year round. Cycling around the lake is a popular way to explore the scenery and local attractions. You can also go fishing, rowing, canoeing, sailing, and swimming in the lake during the summer months. In winter, the lake attracts walkers, skiers, and Nordic skaters and, during a good winter, the longest Nordic skating track in Southern Finland is ploughed in the ice, measuring at 16 kilometres in length.

Bikes, boats, Nordic skates, kick-sleds, snowshoes, and other sports equipment can be hired from several outlets. Shopping, escape games, theatre, and other cultural events, as well as a wide range of restaurants, ensure that there is plenty to keep you entertained in the Lake Tuusula area whatever the weather.

Things to Do All Year.

BIKE AROUND THE LAKE

While you can comfortably cycle around Lake Tuusula in an hour, you can also spend a whole day stopping to enjoy the many points of interest along the route. The road runs through a beautiful cultural landscape and is surrounded by several well-known artists' homes, cafés, and restaurants. You can even enjoy a picnic in one of the local parks.

The route is a circuit, you can start the journey at any point you like. Most of the route follows a bike track or the quiet museum road through pleasantly variable surroundings and is suitable for all ages. Bike hire is available, making cycling an ideal way of leisurely taking in the sights.

Lakeside sauna

The sauna is located alongside Lake Tuusula. The sauna building is divided into two areas: a large sauna for 15 people and a smaller sauna for 5 people. On the larger sauna side there is also a fireplace room. In the summer time, you can take a dip in the lake at the nearby beach..

Elvilä

Elvilä offers a sumptuous setting to enjoy a relaxing sauna and a peaceful evening in the light of the fireplace. The saunas can accommodate 5 people at the same time, and a dozen people can use the fireplace room at the rear. The sauna has a cosy terrace with a nice view of the sunset over Lake Tuusula. In the summer time, you can take a dip in the lake via the nearby jetty.

Janne's sauna

composer Jean Sibelius. The sauna is located in the immediate vicinity of Elvilä and can be hired when making an Elvilä booking. While there is running water in the sauna, there is no separate shower. The saunas can accommodate 4–5 people at the same time.
